

## Newsletter

Hello educators!

Our school days are suddenly very different and our tools have become even more useful and relevant! We are impressed by how quickly educators have adapted and started utilizing the technology that is available to them. We have held quite a few webinars and created user guides to support everyone in continuing to educate our students/tomorrows leaders.

### Parents/Guardians

To make it easier for parents to log in they can use: <https://login.skooler.com/parent>

This is in addition to the free parent app available for Android and iOS.

### Messages

We have revamped our Messages tool so that schools can communicate between teachers and students, teachers and other teachers and increased functionality between teachers and parents/guardians.

**SKOOLER** Messages (PREVIEW)

+ New message

My messages My message groups Administration

Search for message groups

Primrose Hill Secondary School  
Primrose Hill Secondary School 10th Grade  
Primrose Hill Secondary School 11th Grade  
Primrose Hill Secondary School 12th Grade

To send a new message, click the "New message" tab.

A tab with these three options will pop up on your screen. You must have selected the "My message groups" tab to have access to this function.

## Quizzes

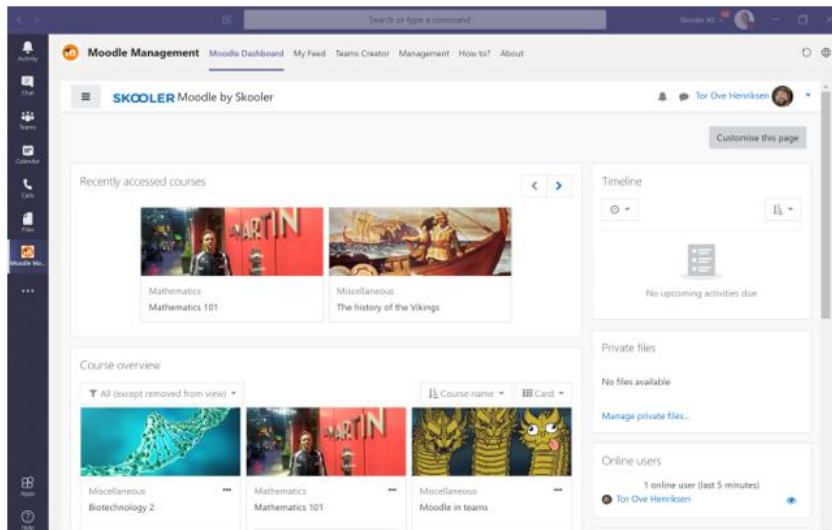

Our new and improved Quizzes allow for more multimedia and functions.

## The Moodle App for Teams

The Moodle App for Teams is the official app from Microsoft to connect Moodle into Teams. The app is developed and supported by Skooler, a long-standing trusted Microsoft Gold Partner in Education.

The Moodle App for Teams allows Moodle administrators to automatically set up a Team for every Moodle course, making all functionality offered through Teams instantly available for every course in Moodle.

In learning institutions where Moodle and Teams are both important parts of the strategy for the virtual learning and working environment, The Moodle App for Teams unites the two.
